C. BUILDING ELEVATIONS

SCALE: 1:50 or 1/4" = 1'-0"

D. BUILDING SECTION

Notes required indicating all construction components

Building Permit Application Requirements

This Bulletin has been designed with the newcomer to the permit process in mind. It is intended to be used in conjunction with the new Saanich Building Permit Application form.

The sample illustrations show the minimum level of detail required on plans to be submitted with a Building Permit Application.

There are additional Bulletins available regarding Height, Basement and Non-Basement Floor areas, as well as common Saanich Zoning Bylaw terms. This information will help people who have had little or no experience with the building permit process in Saanich and those who are unfamiliar with Saanich Zoning Bylaw 8200.
