

Zomba houses vendors

By Macford Musyani

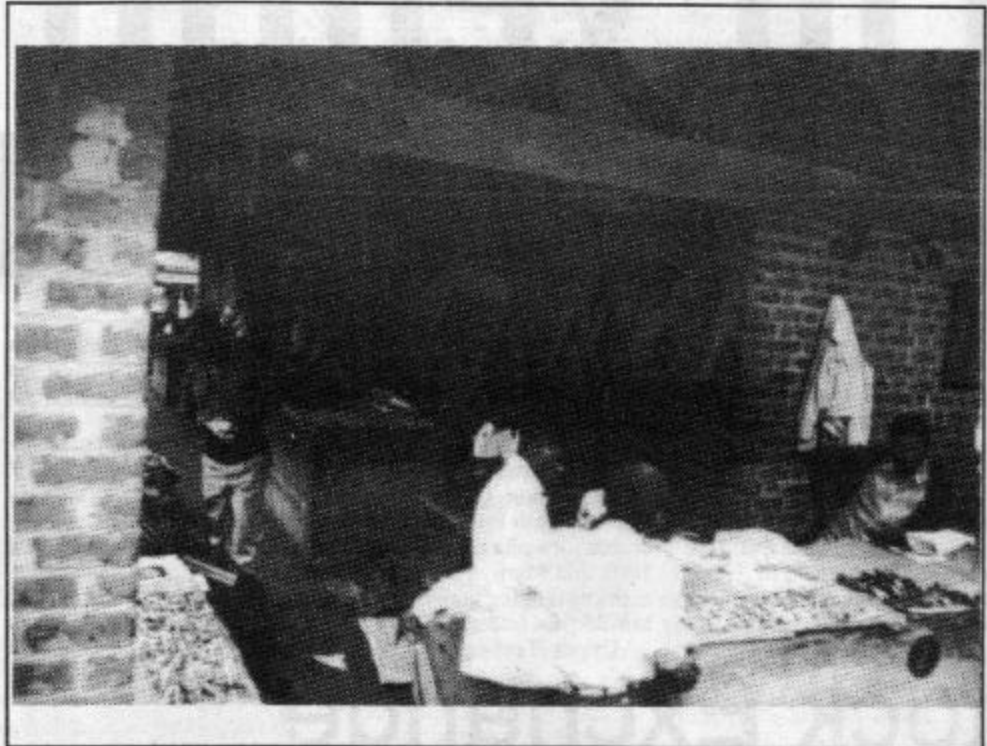

MARKET vendors at Zomba municipal market will no longer feel the pinch of the rainy season, thanks to the completion of new shades by the municipal council with the help of a sister municipal council in Canada.

Zomba municipality Deputy Town Clerk Samson Chirwa said a sister council in Canada, the Municipality of Saanich after touring Zomba sometime in the past, saw the need for the construction of the sheds in the market.

The deputy town clerk said the construction of the sheds which cost K100,000 is a big gift to the community of Zomba.

He said vendors at the market faced problems during the rainy season as they shifted their produce every time they noticed that the rains were coming.

"The council and the community in the Municipality of Zomba are very thankful to our sister

council for the sheds. In fact we have so many development projects that are funded by our sister council in Canada and we just hope that they will not lose heart but continue to assist our

council in its further development projects," said Chirwa.

Mr. Chirwa said the Municipality of Zomba will make sure that the assistance reaches the intended targets.

He said the council will also make sure that the infrastructure built with the help from the sister council just like any others are well utilised by the community.
