

Christmas Hill & Swan Lake Area Trails

For Colquitz River Trails see pages 10-11

The Swan Lake Christmas Hill Nature Sanctuary embodies the spirit of flora and fauna preservation. It is a 30-minute hike from the waters of Swan Lake to the summit of Christmas Hill reaching an elevation of 122 metres. The scenic walk around Swan Lake is 40 minutes, however, you will want more time to thoroughly enjoy the experience. Swan Lake empties via Swan Creek into the Colquitz River, and beyond, to Portage Inlet. For information about the Swan Lake Christmas Hill Nature Sanctuary contact their offices at 479-0211.

Playfair Park is a jewel within the Saanich Parks system. There are over 250 species of plants to enjoy and rediscover season after season.
